Im Phannyvath

Information Technology

Summary

I am an information technology engineering student at the Royal University of Phnom Penh, and I am passionate about both software and hardware aspects of computing. I have experience with front-end and back-end development using technologies like React.js, Next.js, Express, and MongoDB. Through academic projects and volunteering, I've developed strong problem-solving skills, teamwork, and project management experience. Eager to apply my technical expertise and continue learning, I aim to contribute meaningfully to the IT field.

Education

New Generation School Preah Sisowath High School | 2016-2021

Attended New Generation School Preah Sisowath High School , where I built a strong academic foundation and developed a passion for technology.

Royal University of Phnom Penh | 2021-2025

Graduated with a degree in **Information Technology Engineering** from the Royal University of Phnom Penh, where I developed strong technical skills in software development, systems engineering, and emerging technologies.

BRIEF SUMMARY

As a young professional passionate about the information technology sector, Im Phannyvath is a freshly graduated student with a Bachelor Degree in information technology engineering. With solid technical knowledge in programming, systems, and digital solutions, he is capable of planning, executing, and proactively contributing to technology projects.

In his studied journey and practical experiences, Phannyvath has developed strong problem-solving skills and the ability to adapt innovative IT solutions to real-world challenges. His specific skills and specialties include software development, database management, and optimizing digital systems to enhance efficiency. These experiences help him understand IT system design, project implementation, and evaluating solutions based on organizational objectives.

Besides his technical career path, Phannyvath is passionate about continuous learning, collaboration, and contributing to both academic and social activities. He is open-minded, hard-working, energetic, and highly committed to challenging himself for further personal and professional growth in the IT and engineering fields.

EXPERIENCES

TECH ADVISOR

2024-2025

Oone Power Technology Co., Ltd

Worked with government institutions including Electricité du Cambodge (EDC), the Ministry of Mines and Energy (MME), and the Phnom Penh Water Supply Authority (PPWSA).

- Gathered system requirements, designed workflow diagrams, and collaborated with developers to build tailored solutions for government operations.
- Delivered key products including the EDC App, HR App, PPWSA App, and the EDC Work System, ensuring functionality through testing, debugging, and final implementation.
- Trained ministry staff, provided ongoing support, and acted as a bridge between institutions and developers to ensure reliable, user-friendly systems.

WEB DEVELOPER & GRAPHIC DESIGN

2024

E&A Consultant Co., Ltd (INTERNSHIP)

.....

- Developed and maintained the company website by implementing front-end and back-end features, optimizing performance, and ensuring a responsive, user-friendly interface.
- Delivered a new company website and contributed to testing, debugging, and deploying updates to support business operations.
- Designed the majority of the company’s posters and digital assets for online pages, strengthening branding and visual communication.
